Welcome Sledders

Last year we had our family fun ride cancelled again due to cold weather, the annual snowmobile rally and the fish derby were both a great successes. With the lac of snow in the south, riders came north looking for snow. We had riders on our heals as we opened trails for the first time. Many of our volunteers worked on trails well into April.

Well it's time to start thinking about sledding, and getting our sleds ready for the coming season. As we all know our club lost our Musquash shelter to fire this past summer. The shelter was fully insured and we are waiting for government approval so we can proceed with rebuilding. We are not sure what impact the fire will have on our trails. One thing for sure is there will be work to do.

I would like to thank all our volunteers for there endless support, wether it's in the kitchen, on the trails or flipping pancakes, there would be no club with out You.
