

President's Report 2022 – 2023

The past year has once again shown to me the strength of our membership and community at large. In February folks donated their time and energy to make our snowmobile rally a huge success. This was the first rally in a few years and it was great to see that people still supported the club. Later that month and into March many people gave their time and equipment to haul the majority of the building materials across the lake to the new shelter construction site. These are just two examples of how our members support the snowmobile activities that we all enjoy.

Work on the new shelter, site and trails began in earnest in late August. Under the direction of Randy Steinhauer and with the help of so many volunteers we are at the stage the shelter will be operational for this year's sledding season.

Over the past year we have had and continue to have discussions with the logging industry and the government regarding the planned logging in our area. Our next steps are not clear but we will continue to present our case to all concerned parties with the goal of having the logging in our area stopped.

As I step away from my role as President I want to thank everyone who gives their time and energy to the Club. Without your support we could not continue. I also want to thank those individuals who served with me on the Executive. Your support was invaluable. Finally I want to give a special thanks to Giselle Houey, she has done an amazing job as Secretary Treasurer. Her insight and wisdom has been extremely beneficial.
